Executive Engineer (Elect.)

Scope towards Installation, testing & commissioning of Old Split Air Conditioners in the Lab No 206, School of Infrastructure, IIT BHUBANESWAR at ARGUL.

1. The scope includes identifying both indoor & outdoor Units of old ACs which are in good condition & are stored by the Institute at LCS- 5.
2. The identified AC units have to be shifted by the successful contractor from the existing store to the Lab No 206, School of Infrastructure, IIT BHUBANESWAR at ARGUL.
3. Only IDUs & ODUs will be supplied by the Institute. However, the remaining items like Copper pipes, drain pipes, cables from IDUs to ODUs & the stand for ODU fixing shall be supplied by the contractor. The dimensions of the Copper pipes & the drain pipes shall be as per the schedule.
4. The quantities mentioned in the schedule is tentative, the same may vary at site. The contractor has to inspect the site before installation starts & accordingly the copper pipe & drain pipes are to be supplied at site.
5. Jointing of Copper pipes shall be avoided. However, in extreme case as per the site condition, where the length of the copper pipe is more, jointing of the Copper pipes shall be done through Brazing. The accessories required for the Brazing shall be arranged by the contractor within the tendered cost. Proper standard shall be followed by the contractor for Brazing work.
6. During installation, if any valve/flair nuts etc. are found damaged, the same shall be replaced with a new one.
7. Pressure testing shall be carried out as per the prevailing standard following which vacuuming shall be done & the gas charging shall be done. In no case, the leakage shall be observed in the copper pipe line between the IDUs & ODUs.
8. Drain pipe line to be supplied & installed at site shall be insulated properly.
9. Refrigerant shall be supplied by the contractor as per the schedule.
10. Civil work like drilling/wall cutting etc. is under the scope of the contractor which is required for taking the pipes outside for connection with the ODUs. However, the civil work shall be taken up after taking permission from the Institute & shall be done as per the direction of the Engineer-in charge.
11. The ODUs shall be installed over the MS stand duly painted. The location of the IDUs & ODUs will be decided by the Engineer-in-charge or his representative.
12. After completion of the erection work, the ACs are to be tested & the temperature of the room has to be recoded. In case the cooling will not be effective after the installation due to defects in the old IDUs & ODUs, the defective part shall be replaced by the contractor from the existing spare ACs lying with the Institute.
13. During gas filling, care should be taken by the contractor to avoid gas leakage to the surrounding.

Executive Engineer (Elect.)

COMMERCIAL & OTHER TERMS AND CONDITIONS:

1. **Scope of work:** Details enclosed as **Annexure-I, Annexure-II.**
2. **Consumables/Small items:**
The rates shall be all inclusive of establishment as well consumables/small items required for the work. The contractor is required to assess the probable quantity of all types of consumables & other small items likely to be required for execution of the work. Nothing extra on account of consumables shall be payable over and above the contract value. The items shall have to be approved by Engineer in-charge of IIT BBS before use.
3. **Submission of quotation** - All quotations must be submitted in the office of Superintending Engineer, IIT Bhubaneswar and addressed to The Superintending Engineer, Indian Institute of Technology Bhubaneswar, 3rd Floor, Admin. Building At/Po – Argul, Khurda – 752050, Odisha or by email on or before 13/11/2023, 2.00 PM
