

First Announcement

10th International Congress on Computational Mechanics and Simulations
17th-19th December 2025

Indian Institute of Technology Bhubaneswar

Under the auspices of

Indian Association of Computational Mechanics (IndACM)

About ICCMS

Under the auspices of the Indian Association for Computational Mechanics (IndACM), ICCMS is organized biennially. The association was founded on 1st January 2000 and has about 200 life members. The 9th ICCMS was held at Indian Institute of Technology Gandhinagar. Computational Mechanics, being an interdisciplinary domain of mechanics, involving mathematical models of physical real-life problems and their solutions, the congress is typically attended by delegates with background in civil engineering, mechanical engineering, aerospace engineering, materials engineering/science, physics, mathematics and other disciplines.

About the host- IIT Bhubaneswar

Established in the year 2008 as one of the eight second generation IITs by Government of India, IIT Bhubaneswar has a lush green campus with a 936-acre footprint amid the foothills of majestic Barunei, a region renowned for its lengthy history. Seven schools of study make up IIT Bhubaneswar, which provides UG, PG, and PhD programs in various specializations. The capital city Bhubaneswar, often called as the "Temple city", offers a perfect winter gateway to a cultural heritage of Odisha through its centuries old structural marvels. The conference team will also organize tours to Nandankanan Zoological park and Konark Sun temple during the event.

Call for papers and tentative timeline

Technical papers are invited from researchers, engineers and scientists working in any field of computational mechanics and simulation of real-life problems. The submission link will be available on the website by December 2024. Also, proposals are invited from the active researchers for hosting mini-symposia during the ICCMS 2025.

Abstract
submission to
begin:
December, 2024

Conference dates:
17th-19th
December
2025

Deadline for
mini-symposium
proposal:
November, 2024

Registration to
start:
April, 2025
